ENHANCED DISINFECTION STUDIO PROCEDURES

For the safety of our dancers and staff, we are incorporating NEW extensive sanitization protocols in addition to our existing standard cleaning procedures.

Disinfection:

- ◆ We will be using an EPA approved disinfectant (EPA # 67619-38) proven to kill SARS CoV-2, which causes Covid-19 and the flu regularly.
- ◆ We will be applying the disinfectant with Electrostatic technology. This procedure enables us to fully cover all areas of our space with solution including the sides, undersides and back-sides of surfaces in compliance with the CDC guidelines.
- ◆ Dancers should bring cleaning wipes to class. We are implementing a new wipe down policy in accordance with the state-mandated COVID-19 guidelines. Although we will be cleaning and sanitizing frequently, dancers will be asked to wipe down their area of the dance bar or any equipment they use personally.
- ◆ We will be sanitizing our studios, and high touch points through out the day.
- ◆ We will continue to have hand sanitizer stations in every classroom. Dancers are still encouraged to bring their own hand sanitizer with them to class.

Procedures:

- ◆ We ask that students that have been diagnosed with COVID-19, had symptoms of COVID-19, or had contact with a person who is suspected to have COVID-19 to follow the recommended CDC guidelines.
- ◆ Please take your temperature and wash your hands for 20 seconds before you arrive as a precaution.
- ◆ We do not require that our dancers wear masks; however, students are welcome to wear a mask in class if they choose!
- ◆ Dancers will not be able to keep their dance bags in the hallway/hall cubbies. Dancers should keep their dance bags with them in their studio.
- ◆ Bring a labeled water bottle to class. Our public water fountain is currently closed.
- ◆ Please leave promptly after class so we can sanitize for other groups.
- ◆ Gathering in Bravo's lobby is currently prohibited. Parents should drop their dancers off at the door and wait outside of the studio for their dancer after class. Parents are more than welcome to wait during class in the parking lot.
